steel plate drawers

'b' class

- Manufactured to T4 Protective Security specification for storage of confidential material - SCEC# endorsed
- Designed to provide evidence of tampering and attempts of covert entry
- 1.6mm mild steel carcass, 5.0mm mild steel plate drawer front, fully welded to a 1.2mm mild steel drawer body
- 'B' class cabinets can be fitted with SCEC* endorsed electro-mechanical locks - LaGard TL11G, Kaba-Mas X-09 or a manual combination lock
- Anti-tilt mechanism prevents cabinet tipping
- Contract BG52
- Also available as a 'c' class alternative with a bilock key lock
- Wide range of powder coat colours available, including ripple finishes. Additional costs may apply.
